A-540260 – SET OF (3) ELITE PLYOSAFE™ PLYOBBOXES (12", 18", & 24")

A-540265 – 6" ELITE PLYOSAFE™ PLYOBBOX

A-540263 – 12" ELITE PLYOSAFE™ PLYOBBOX

A-540262 – 18" ELITE PLYOSAFE™ PLYOBBOX

A-540261 – 24" ELITE PLYOSAFE™ PLYOBBOX

CONSTRUCTION FEATURES:

CORE STRUCTURE – Built with a 100% $\frac{3}{4}$ " oak understructure for unmatched strength and durability.

REINFORCEMENT – Each corner is reinforced with two stainless steel "L" brackets for added structural integrity.

STACKABLE DESIGN – 12" and 18" boxes feature an open-bottom construction for easy stacking.

STACKING LIP – All boxes include a $\frac{3}{4}$ " raised oak lip, coated in water-based polyurethane, allowing secure stacking and lid locking.

24" BOX BASE – Bottomed with $\frac{3}{4}$ " high-density rubber to ensure stability and floor protection.

SIDE PADDING – Features $\frac{1}{2}$ " oak backing layered with $1\frac{3}{8}$ " crosslink Ethafoam, wrapped in heavy-duty 21 oz. vinyl.

PADDING CONFIGURATION – Each box includes four main side pads and four one-piece corner pads. All pads are internally mounted and individually replaceable.

RECESSED HANDLES – Stainless-steel recessed handles on two sides of each box provide easy transport without interfering with use.

IMPACT SAFETY – $\frac{1}{4}$ " overlap of exposed oak on both the lid and side padding helps reduce the risk of contact injuries from missed jumps.

LID CONSTRUCTION – Lids are constructed with $\frac{3}{4}$ " oak backing, $1\frac{3}{4}$ " crosslink Ethafoam, and 21 oz. matching vinyl. Finished with a snug-fitting $\frac{3}{4}$ " poplar trim to securely lock onto the box's raised lip, preventing slippage during use.

CUSTOMIZATION OPTIONS:

LOGOS – Custom logos can be applied to the non-handle sides of each box for personalized branding.

COLORS – Custom vinyl colors are available with a minimum order of three sets or for an additional fee.

COLOR ACCENTS – Optional contrasting colors available for center and corner pads; lid color will match center pads for a cohesive look.

FOOTPRINT:

All Boxes = 26" x 26" x Specified Height

A-540280 PLYOSAFE G2 BOXES - Set of 5 (3", 6", 12", 18", 24")

A-540281 PLYOSAFE G2 BOXES - Set of 3 (12", 18", 24")

A-540288 PLYOSAFE G2 BOXES - Set of 3 (6", 12", 24")

A-540287 PLYOSAFE G2 BOXES - Set of 3 (6", 12", 18")

The UCS® PlyoSafe™ G2 Boxes are designed to deliver safe, effective plyometric training for athletes of all levels. Built with durable foam cores and protective vinyl covers, these boxes provide stability while reducing the risk of injury during jumps and landings. The complete set of five boxes offers a wide range of training heights for progressive development.

KEY FEATURES:

DURABLE CONSTRUCTION – High-density foam cores maintain shape and stability through repeated use.

PROTECTIVE DESIGN – Covered in heavy-duty vinyl to withstand impact while reducing the risk of injury.

PROGRESSIVE TRAINING – Multiple box heights support step-ups, box jumps, depth jumps, and advanced plyometric routines..

SECURE STACKING – Boxes are designed with durable Velcro attachment system to stack safely, allowing for easy storage and flexible training setups.

EASY TO CLEAN – Smooth vinyl surfaces wipe down quickly for hassle-free maintenance.

TRUSTED UCS® QUALITY – Built for long-lasting performance in high-intensity training environments.
