

MODEL X50-AM18E18 – 8' RACK SYSTEM WITH DUAL SIDE ENTRY WEIGHT STORAGE

MODEL X50-AM19E19 – 9' RACK SYSTEM WITH DUAL SIDE ENTRY WEIGHT STORAGE

MODEL X50-AM19EB – 9' RACK SYSTEM WITH DUAL SIDE ENTRY BUMPER PLATE WEIGHT STORAGE

CONSTRUCTION FEATURES:

UPRIGHTS – Constructed from 3" x 3" 7-gauge steel tubing, welded to 3" x 2" 7-gauge steel base tubes for maximum strength and stability.

SUPPORT – 3" x 3" 7-gauge angled steel supports are welded between the base and uprights to reinforce structure.

HOOK PLATES – ¾" nickel-plated hook plates with smooth edges are securely attached to the uprights using concealed hardware.

PROTECTION – ¼" high-impact plastic shields cover the front, inside, and back of each upright, offering superior protection against wear.

FINISH – All steel components—including uprights, bases, and supports—are sand-blasted and powder-coated for maximum paint adhesion and chip resistance.

SPOTTER PLATFORM – Powder-coated diamond plate platform provides added area for spotters and creates a seamless, gapless walkthrough rack when installed.

WEIGHT STORAGE FEATURES:

FRAME – Constructed from ROLLED 3" x 2" 7-gauge steel tubing, welded to a 3" x 2" 7-gauge steel base tube for structural integrity. (BUMPER PLATE = CURVED TUBING)

FINISH – Sand-blasted and powder-coated for durability and corrosion resistance; standard finish in wrinkle black.

CAPACITY – Designed to accommodate 2½ lb., 5 lb., 10 lb., 25 lb., 35 lb., and 45 lb. weight plates. Includes four vertical bar sleeves for barbell storage.

PROTECTION – Plate storage arms are fitted with ¼" plastic sleeves and rubber bumpers to protect both the rack and the plates from wear and damage.
