8500 SERIES HIGH JUMP STANDARDS

BASE: Featuring a weighted, rust-resistant base, this design includes two 3" casters for effortless movement of the uprights. It also incorporates built-in leveling devices to ensure stability on uneven surfaces.

UPRIGHT: Custom extruded anodized aluminum main section with a shatter-proof viewing window that provides the top bar rest height and the lower bar rest height as one. Bar rests can be adjusted for perfect zeroing of the crossbar at the bottom and top bar rest. Bar rest is manufactured out of durable polypropylene. Extremely rigid upright allows absolute stability.

HEIGHT

ADJUSTMENT: Height adjustment is easily readable in both imperial and metric measurements, ranging from 2' (60.96 cm.) to 8' (2.44 m.). The quick-set adjustment knob allows for effortless changes—simply turn, tighten, and lift to secure the desired height.

REGULATIONS: Meets all World Athletics, USATF, NCAA, and NHSF regulations.

GUARANTEE: Backed by a 10-year guarantee against defects in workmanship and materials, ensuring long-term reliability and peace of mind.

8600 SERIES HIGH JUMP STANDARDS

WORLD ATHLETICS
CERTIFIED PRODUCT
E-99-0059

- Constructed from 5.5" x 2.5" extruded aluminum with a 3/8" wall thickness for maximum strength and rigidity
- Semi-hollow extrusion encloses the movable upright for added stability
- Fabricated with 12-gauge Double D steel profiles and finished with 100% rust-resistant gunmetal coating
- Bases include built-in 2" x 3" wheels for easy tilt-and-roll mobility
- Custom-molded 100 durometer end plugs and adjustable leveling knobs ensure long-lasting performance and perfect alignment
- Zinc zero-adjusting unit provides accurate height readings in both imperial and metric
- Height range: 3'-8'5" (91cm-2.56m) with quick-release collar for fast adjustments
- Easy-to-read scales in both metric and imperial units
- World Athletics Certified
